### User Documentation

### Adding Images

Clicking the **Add Image** icon , or selecting **File** then choosing **Add Image** will open the standard file browse and select window. From that window you can navigate to the folder and find the images you want to add to the list (**Image Thumbnail**) to be converted from.

Alternatively, if you are using Windows Explorer to locate image files, you have the convenience of being able to 'drag and drop' image files into the **Image Thumbnail** list.

A-PDF Image to PDF even allows you to select all files in a particular directory/folder by using the **Add a Directory** option from the **File** menu! Add a directory also supports sub-folders.

Each added image is displayed in the A-PDF Image to PDF left window: **Image Thumbnail**, as seen in the example right. You can view any of the images in the window by 'clicking' them. That will display image files in right View window.

You can sort the images in **Image Thumbnail** by clicking the pop-up menu "**Sort by size**". Or you can change an image or multiple images order by 'drag and drop' image files in the **Image Thumbnail**. You also can select an or multiple images in the **Image Thumbnail** list, then click the **Move up** item to move selected image(s) to previous position from the **Action** menu; click the **Move down** item to move selected image(s) to next position from the **Action** menu. IF you want to delete selected images in the **Image Thumbnail**, you can click the **Remove** item or you can clear all images in the **Image Thumbnail** by clicking the **Clear** item from the **File** menu

### Adding Image from Scanner

To add images from scanner, Click the scanner icon , or selecting **File** then choosing **Scan** -> **Select scanner** to select an exists scanner, then choosing **Scan** -> **Acquire** to scan images to **Image Thumbnail**.

### Select Look&Feel and Preview

Select  Look&Feel: Default  Setting to set output Flash Themes, click  Preview button to Preview the effect of output flipbook.
